Following publication of the original article, the authors identified an error in Eq. 12.

The minus (−) needs to be changed to plus (+) in Eq. 12.

The equation currently reads:

$$\int_0^{\Delta t} E dt = S_R - \int_0^{\Delta t} Re dt$$

The equation should read:

$$\int_0^{\Delta t} E dt = S_R + \int_0^{\Delta t} Re dt \quad (12)$$

The original article (Hackstein and Madlener 2021) has been corrected.
